To whom it may concern

We have engaged Schooley Mitchell Consultants to analyze our cell phone bills and make recommendations on a course of action to save us money. Their recommendations saved us on average 22% of the monthly expenses and we did not have to change providers.

We are all actively seeking ways to improve our business and these days there are so many things to manage and worry about in running a business. Managing the very confusing world of Telecom costs and in particular cellular costs might be one of things you never get to or find impossible to figure out. Mike Gallagher of Schooley Mitchell allowed us to understand what we were paying by providing a simple report and he made sound recommendations to save money.

I highly recommend Mike and endorse his quality of work, follow up, and professionalism. This valuable service was provided with very little time spent by my company and at no cost. The results put money back into the budget to help better serve our clients and build our business.

Sincerely,

Kathleen Desmond Barr
Funeral Director
