Schooley Mitchell Telecom Consultants

c/o David Nelson, Sharon Kim

To Whom It May Concern:

Please let this serve as my letter of endorsement for the services provided by David Nelson and Sharon Kim and the Schooley Mitchell telecom expense reduction program. We first met Mr. Nelson at a conference where he was a featured speaker describing how to manage telecom resources in tough times. Having tried to reduce our expenses internally without much success, we invited him to review our company's telecom records.

Mr. Nelson and his team performed a thorough analysis, and provided us with an objective risk-free recommendation that did not cost our company anything out-of-pocket. I can attest to the fact that anyone contemplating a telecom expense review by Schooley Mitchell has nothing to lose. They can only improve your bottom line.

The results they delivered were outstanding. They streamlined our communication infrastructure by eliminating unused and under-performing services which resulted in a 40% reduction in our voice communication costs, and all of the savings were delivered without changing our current providers. We will certainly look to them again in the future, as we consider relocation to new facilities in the coming months.

We highly recommend that businesses invite Mr. Nelson to explain how to manage telecom resources for maximum return, because his team delivers real results that put money directly back to the bottom line.

Sincerely,

A handwritten signature in black ink, appearing to read "Sandy Kappas", written over a white background.
