Marshall Port  
Schooley Mitchell Telecom Consultants

Dear Marshall,

I want to thank you for the excellent and outstanding service that you provided to our organization. As a registered charity every dollar is precious and can be used in many ways. The use of the phone was one of the things that we just took for granted. We had no idea the amount of money that could be saved until you came to us with your assistance plan. It certainly pays to be vigilant in this day and age when it comes to office costs.

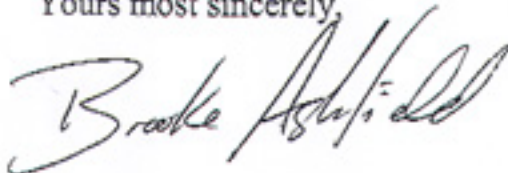

You said you would perform a risk free analysis of our communication systems and that's exactly what you did, realizing annually savings of over 30%.

Your system of helping us find the most cost effective solutions to our need for phone service is very much appreciated. You will make sure that our phone costs are well under budget for this year.

I would highly recommend Schooley Mitchell Consulting to anyone looking to save money on their phone costs.

Thank you.

Yours most sincerely,

Rev. Brooke Ashfield
