Dear Sharon and David:

I've been working with you both here at Galleria Markets for several months now, and I just wanted to express my appreciation for you efforts.

Though we felt we had a very reasonable cellular plan, your recommendations saved us over 22% the first month. I'm also very pleased with our meeting today, and our discussion about reducing our T-1 rates by almost half to our main location.

We are very pleased with the professionalism and quality of service we've received. We would not hesitate to recommend you, and the Schooley Mitchell consulting firm to any organization seeking to improve their telecom services, and their bottom line.

Sincerely yours,

PJ Kim
