To whom it may concern:

Greg Ptacin of Schooley Mitchell Telecom Consulting did a project for Carroll Halliday, Inc. that was very valuable in deciding what to do with our telephone system.

His analysis was prompt, easy to understand and provided recommendations that reduced costs and provided a basis for upgrading the phone system itself. Greg also identified a data issue that need to be resolved.

I recommend Greg and Schooley Mitchell for any business that wants to get a handle on telecom costs.

Sincerely

David T. Ogan Jr.
President
