To Whom It May Concern:

John Eaton of Schooley Mitchell Telecom Consultants has recently completed a comprehensive review of our telecommunications services.

John was able to identify several areas of potential savings with our current suppliers. Schooley Mitchell coordinated the implementation of these recommendations and we were able to realize significant annual savings. In a very competitive transport business these savings went straight to our bottom line.

I would recommend John Eaton and Schooley Mitchell as an excellent choice for any business wishing to review and reduce their telecommunications costs.

Yours truly,

Ottaway Transport
