To Whom it May Concern

Our organization retained the services of Schooley Mitchell in Calgary in 2005. Tony Forbes and Bill Webster worked on our file. After completing an in-depth review of all the telecom services we used, they showed us how we could save a significant amount of money.

While we had several meetings to discuss options, they tried to take very little of our time and once we approved their recommendations, they managed implementation of things for us.

We would recommend Schooley Mitchell's service to help organizations make the right decisions about telecom services.

Associations Plus specializes in supporting industry and owner/operator professional associations and has clients throughout North America.

Yours truly,
