Your life. Your money. Your way.SM

July 7, 2009

Gary Newman and his team at Schooley-Mitchell have done a great job managing our telecommunications and data service needs at our small firm. We lack the expertise and the time to fully understand the various corporate calling plans in the marketplace. Gary and his team have provided very professional services to our firm, saved us money, and I am confident we are only paying for what we need at our firm.

Thank you very much for your hard work!

Sincerely,

Walter Moore, CFP
Vice President
