To Whom It May Concern:

I would like to point out the fine work done by Jim Welch of Schooley Mitchell Telecom Consultants. During a visit to our office Jim described the process where our invoices are analyzed. Using his corporate tools comparisons are made to thousands of tariffs negotiated by Schooley Mitchell. Jim was able to show this to our current carrier. Sticking with our current carrier was our preference as switching would be disruptive to our business. Jim negotiated savings for us of almost \$2000.00 or 38% of our annual land line costs. Jim also found billing errors greater than \$450.00 and obtained credits to our invoice. He is working on another error that could return >\$600 to us. Jim's next task is our wireless devices, eighteen in total. We are looking forward to see the outcome of this audit. Total Foundations recommends the services of Schooley Mitchell Telecom Consultants.

Sincerely,

Mark Bratton
