To Whom It May Concern:

It is my pleasure to give testimony to the excellent service provided by Schooley Mitchell Telecom Consultants. Through their thorough and diligent investigations, they managed to trim our telecommunication expenses considerably. This was done in a comprehensive and professional manner with little disruption to our office staff.

In my opinion, any business in the province, or country, with rare exception, would realize a reduction in their telecommunication costs by engaging Schooley Mitchell Consultants to review their telecommunication services.

I promote this innovative company and would be happy to discuss the service they provided with anyone.

Yours very truly,

Sue Lomas
Administrator
