Customer Recommendation

The Guelph Chamber of Commerce has recently had Mr. Neil Hostein from the Schooley Mitchell Telecom Consultants do a complete evaluation on our telecommunications services and rates. In these busy times, it is difficult to stay on top of all the different plans and long distance saving packages that are available and are continually changing.

The Chamber's experience with this company has been extremely positive. The process took very little time from our perspective and the information from the evaluation revealed an area where there was an opportunity for some savings. Neil Hostein offers both knowledge and service to his clients. There is no doubt that the Chamber will go through this process again in time to determine if we are still getting the best value for our dollar. Schooley Mitchell is, in my opinion, an excellent and professional organization to deal with.

Yours Sincerely,

Ian R. Smith
