To Whom It May Concern:

We recently had a comprehensive review of our telecommunications services and costs completed by Jim Kinsella of Schooley Mitchell Telecom Consultants.

After in-depth analysis, Jim was able to find us savings of 33 % on our local services, and 22 % on our long distance. He also found savings on our calling cards, cellular and Internet services. By implementing Jim's recommendations, we are able to realize annual savings on our telecommunications costs of approximately 26 %.

I highly recommend Jim Kinsella and Schooley Mitchell Telecom Consultants as an excellent choice for any business wishing to review and reduce their telecommunications costs.

We were very pleased with Jim's professionalism, knowledge and courteous service. We are confident that Jim will continue to use due diligence in finding additional savings throughout our contract term.

Yours truly,

All Points Freight Inc.
