New York, New York 10011

Dear Greg:

C.W. Post receives thousands of phone calls each day and an efficient means of communication is essential to the campus community. When we needed to reorganize our telephone system in an effort to make it more user-friendly, we contracted with you to assist with the process.

You understood the unique needs of our campus and were able to tailor a custom Auto Attendant system for us. Working with you was an absolute pleasure for you are knowledgeable, professional and an expert in the field. You took the time to understand our needs and made yourself available for consultation throughout the entire process.

You are an asset to Schooley Mitchell Telecom Consultants and you are someone who epitomizes the ideals of personal service and attention and you should be commended for your excellent work.

Most Sincerely,

Dr. Pamela Lennox  
Associate Provost for Campus Services  
C.W. Post Campus of Long Island University
