

CITY OF STRATFORD

Stratford, Ontario

To Whom It May Concern:

Schooley Mitchell has been working with the City of Stratford in a consulting capacity related to our new wireless data communications system, since January 1997. We have been most pleased with the professionalism and flexibility shown by Schooley Mitchell staff throughout this assignment.

Their involvement has included the identification of our needs related to this cutting edge technology as well as the ultimate supplier selection. Schooley Mitchell staff then monitored the implementation of the system and ensured excellent training designed to gain optimum efficiency was provided. They have also been involved in the design of cabling solutions to integrate our local area network and our Radio Frequency data communication wide area network. On an ongoing basis, they continue to provide supplemental training,, supplier liaison and monitoring services, as well as troubleshooting support.

We are very pleased with the professional consulting services provided by Schooley Mitchell which is precisely why we renewed their contract to continue providing service throughout 1998. We should not hesitate to recommend Schooley Mitchell to any organization requiring professional consulting services.

Yours truly,

George Skowby

Director of Corporate Services
