

*Building your future*

May 6, 2009

To Whom It May Concern:

We are very pleased to have engaged the services of Matt Schlegel and Schooley Mitchell. I have to admit I was skeptical in the beginning. We had tried telecom consulting services in the past with no measureable results. The experience with Schooley Mitchell has been like night and day. They performed a careful analysis of our services and became intimately familiar with our requirements and usage. Based on their knowledge of our needs and their expertise in the area of telecommunications, they were able to provide the following: 1) a recommendation for a service configuration that dramatically reduced our required services; and 2) best-in-class pricing for the services that we need to maintain.

Matt presented Schooley Mitchell's findings and recommendations in a comprehensive and professional report. Since we chose to move forward with the recommendations, Matt has been with us every step of the way, working with our staff to ensure that the new services are implemented and billed properly and that the old services are turned off. As a result of Schooley Mitchell's recommendations and actions, we are on track to save nearly 50% on our voice service costs! We could not be happier with these results. We welcome the opportunity to recommend Matt Schlegel and Schooley Mitchell to any firm serious about optimizing their telecom services.

Sincerely,

Susan Harris
