ME Dey Reduces Communications Expenses by 56% via Third-Party Bill Review

ME Dey recently contracted with Schooley Mitchell Telecom Consultants, North America's largest independent auditor of data and telecom bills, and realized substantial savings while upgrading communications technology in the process. Schooley Mitchell offers such reviews on a risk-free basis for its clients: if the review does not recover and/or save money, there is no charge for the service.

Across its client base, Schooley Mitchell has reviewed over a quarter billion in expense and has achieved seven-figure recoveries for some clients. They handle all US and Canadian cities in all industries and are currently welcoming new business. If interested, please contact them at scott.matchette@schooleymitchell.com or 414.334.9270.
