

# KENNETH HOMES

DESIGN BUILD INC.

To whom it may concern:

Kenneth Homes has been building our clients dreams for over 15 years. We have built our reputation on quality workmanship, professionalism and unrivalled customer service. We believe that a home deserves to be designed, built and renovated by a company that truly cares. We take great pride in every project we take part in. From the design and dream stage to the day that you get to sit back for the first time and realize that your dream home is a reality.

We engaged Bhargavi Rajesh of Schooley Mitchell to review our waste expenses. As a reputed builder, we rely heavily on streamlined and cost-effective operational support. Bhargavi and her team negotiated well and got me better rates which has resulted in good savings for my company. In addition, I also receive continuous project management, account assessment and monitoring of my waste expenses.

I recommend Bhargavi to any business looking at reducing monthly operating expenses. She will bring your business great results without you having to spend more money and time.

Sincerely yours,
