To Whom It May Concern:

I am writing this letter to recommend the services provided by Denis Tan of Schooley Mitchell to any business owner. Heil Ginseng, Inc. is one of the largest Wisconsin Ginseng producers in the USA. We produce over 150,000 pounds of our roots each year along with processing an additional 100,000 pounds for other growers in the area. Through conscientious farming, we are also proud to raise and harvest high quality CBD and hemp products.

We have worked with Denis previously when he was in the agriculture industry. When he started Schooley Mitchell, he came to us and offered to conduct a risk-free analysis of our business expenses. Knowing he has high integrity, we trusted him to perform an audit for us and we agreed to provide him and his team the information they needed.

Schooley Mitchell looked at our business expenses and came back with several recommendations where we could save money. One of the recommendations was to wait for a few months to switch our phone vendors so that we could **save 32% in our telecom bills**. Schooley Mitchell handled the full implementation, including the port-over and activation of devices. They also looked at our waste bill and managed to **save us 37% immediately** while staying with our incumbent vendor.

Schooley Mitchell continues to audit our monthly statements to make sure that our prices remain low and free from errors. I strongly recommend any business owner interested in saving time and money to give Schooley Mitchell a call. Their service is risk-free, and you will be glad that you did.

Sincerely,

Nevin Smith  
Vice President
