

To whom it may concern:

I am more than happy to write this letter of recommendation on behalf of The Gastrointestinal Institute. Opened in May 2005, The Gastrointestinal Institute is a state-of-the-art endoscopic facility that specializes in diagnosing and treating a wide array of disorders.

The Gastrointestinal Institute has achieved accreditation by the Institute for Medical Quality (IMQ). Its services include, but are not limited to, CAT scans, esophageal dilation, hemorrhoid banding and conscious sedation. From Celiac Disease and Crohn's Disease to Reflux and GERD, the team has the experience and know-how to address any concerns and provide the necessary treatments.

The Gastrointestinal Institute is made up of highly trained, professional, and friendly staff, nurses, and technicians to provide high quality care to each and every patient. It is led by Dr. Matter, a board-certified Gastroenterology specialist with years of experience.

I recommend The Gastrointestinal Institute to anyone who has been suffering from gastrointestinal issues! It's an amazing facility and the highly trained staff, nurses, and technicians will provide the high-quality care you deserve.

Sincerely,

David Dow
