

To Whom It May Concern,

I am happy to write this letter in recommendation of a great local business Wasatch Touring. Located in Salt Lake City, Utah, Wasatch Touring offers equipment for sale, repair or rent for biking, boating, skiing, hiking and more.

If you love getting outside and exploring the world around you, you are sure to find exactly what you need at Wasatch Touring. Whether you're in need of bike repairs or tune ups, a kayak, lifejackets, ski accessories or even car racks, it has the best quality products around.

Not only are the products exceptional, but so is the team at Wasatch Touring. Each individual is passionate about outdoor adventures and is committed to keeping your equipment in tip top shape. Founders Charlie and Dwight are true adventurers with a rich history of backcountry exploring, which is what lead them to start Wasatch Touring in the first place.

I highly recommend visiting Wasatch Touring if you just want to browse the store, are looking for rentals, or need repairs. With Wasatch Touring, and its great team, you can rest assured that you and your equipment will be in the right hands.

Yours truly,
