Bryan,

I would like to thank you and your team with Schooley Mitchell for the dedicated work you all put forth to help save our company a lot of money in places we would have not thought to have looked or have had great knowledge of. Your team was very diligent and very knowledgeable in negotiating and understanding contracts.

The overall savings was greater than I had anticipated, waste was a total of 41%, our telecom was 32% and our biggest dollar savings was credit card processing with a 33% savings which is impressive when considering a large volume of payments from our clients is by credit card.

The entire process was seamless and very informative each step of the way. Each category we discussed the options there were, and the savings of each option based on our previous invoices. Your team was able to catch billings issues and over charges on previous bills which we were able to get that money back.

Thank you Bryan as well as your team for the hard work and dedication you all put in to earn us a lot of savings. We very much appreciate everything.

Kind regards,

Shaun McCue
