

Cedar Creek Manor

Providing quality, personal care for the elderly

To whom it may concern:

Cedar Creek Manor is a family owned and operated Community Based Residential Facility (CBRF) that is committed to making a difference in the lives of the elderly. Our qualified and trained caregivers nurture and provide quality care to our residents. Whether you or your loved one requires short-term respite care or long-term caregiving service until end of life, Cedar Creek Manor is here for you. We provide personalized caregiving services to all our residents.

Denis Tan of Schooley Mitchell first introduced himself to us in November 2020. We learned that Schooley Mitchell would provide a risk-free assessment of our current waste contract and statements, and if he could find us savings, we would simply share the savings. If he could not, we would have simply received a free audit.

Prior to meeting Denis, our waste bill would show an increase of about 11% year after year. After five years, we were paying almost double compared to what our initial contracted price was. When Denis said that his audit was risk-free, we decided that we had nothing to lose and agreed to sign the service agreement with Schooley Mitchell.

About six weeks later, Denis and his team presented to us their value report. They managed to find a **reduction of our cost by 58.66%** if we waited till our current waste contract expired and switch vendors. We had only seven more months remaining on our existing contract. Denis and his team assisted with the letter of termination, coordinated the bin removal and delivery of new bins.

We are very happy with the services that Denis and his team has provided us. We look forward for his team to perform an audit on our telecom expenses and see how much more he can help us save.

I strongly recommend any business owner to give Denis Tan of Schooley Mitchell a call. Their services are truly risk-free, and they'll save you both time and money, as they did for us.

Sincerely,

Linda Fosick
