Just Wow! Blaine Stephens and Tim Lester from Schooley Mitchell are AMAZING!

The promise that they will go to bat for you in getting the best prices for internet & phone services as well as rates on credit card processing charges is an understatement! What they have done for the White Bear Area Chamber of Commerce is fantastic!

The process could not be simpler to get them started. Give them some copies of your statements and they are off and running. No need for you to have those frustrating phone calls with the cable company, they do it for you.

Not only did we get refunds for being overcharged, our processing charges were decreased and our internet program was upgraded with a LOWER cost. How can you beat MORE FOR LESS?

The cost for their service is just one half of the amount they save you, a definite Win-Win!

I'm so impressed with this company, I would recommend it to anyone who has a business!

Take advantage of Schooley Mitchell and don't be taken of advantage of by the services you need. They've got your back!

Maureen Francis
