

To whom it may concern,

I am happy to recommend Schooley Mitchell Consultant Blaine Stephens. We engaged Schooley Mitchell to review our telecommunication expenses and credit card processing fees. Due to their unique approach to billing based only upon realized savings, we faced no risk and no additional cost by trying their services.

As we have contractual commitments and system integration with our current providers, we did not have an option to consider changing vendors to save on expenses. Working within these limitations, Schooley Mitchell was able to save us nearly \$2400 per year by optimizing our current services. Additionally, we were amazed to learn Schooley Mitchell was able to recover over \$4200 in charges for an internet account which had been disconnected 9 months earlier!

Schooley Mitchell saved us both time and money and gave us a clear understanding of the value of the essential services we use to run our country club every day. Blaine and his team of analysts are extremely thorough in their approach and communication.

If you are interested in saving money without any risk or cost for trying their service, I highly recommend Blaine and Schooley Mitchell. This service is beneficial to any organization who would like to save on expenses and may not have the time or expertise to achieve this outcome on their own.

Sincerely,
