

To whom it may concern,

I would like to take this opportunity to write a letter of recommendation on behalf of a talented individual, Greg Thewes. Based out of Akron, Ohio, Greg is the passionate and intelligent owner of Margin Authority.

Greg founded Margin Authority with the intent to make small businesses realize their fullest potential with their finances. Greg understands that finances can be confusing and difficult, so he created Margin Authority to support clients and boost their revenue.

Greg and his team provide services to understand margins, profit planning, debt reduction and even optimize cash flow. Greg ensures that You're not alone. The health and sustainability of your business is important, so knowing all the numbers, and understanding how they influence one another, will help you make better decisions for your business.

While I have only known Greg for a short time, I quickly came to know him as the truly detail oriented person that he is. He is an extremely knowledgeable individual who is passionate, courteous, and reliable to every one of his clients and his community.

I highly recommend Greg Thewes and his team at Margin Authority to anyone looking to improve their business' finances. From cost reduction to financial planning, Greg is always available to help you and your business grow.

Sincerely,

Fred Carter
