

April 2016

To Whom It May Concern:

I have been a Franchisee in the Schooley Mitchell system for almost 12 years and I have no regrets. I have enjoyed building my business into a base of over 250 clients and have grown tremendously as a business professional from being introduced to the many facets of running a small business.

The business model of Schooley Mitchell allows me to have a common agenda with my clients and create a win-win proposition. It also allowed me to have flexibility in the way I choose to develop and grow my practice.

The financial rewards have been tremendous - I gave up a career where I earned over \$175K a year to join Schooley Mitchell and have attained a much higher level of financial security.

The training, support, and systems provided through Schooley Mitchell have been helpful in guiding me to attain my goals. The system itself is always evolving and I'm looking forward to future enhancements that will help increase my profits.

I was able to operate in the black within the first year of operations and I have now reached the upper echelon of revenues within the Schooley Mitchell system. I am certainly looking forward to the future, not only to increase my own results, but to participate in the great business with great people. I have built lasting relationships with fellow Franchisees, my clients and the staff at head office.

I would not hesitate to recommend Schooley Mitchell to anyone that has the ability to sell and build good relationships. There is no limit to the potential and the enjoyment that can be achieved in this franchise opportunity.

Yours truly,

Sean Fox
