

To whom it may concern,

I'm thrilled to write a letter of recommendation for American Lift & Equipment, Inc. It is an authorized Tailift-USA and Master Craft dealership serving the Houston area with a proven track record of excellent customer support.

American Lift & Equipment, Inc was established in 1989 by co-founders Billy Glines and Steve Cailleau. Billy and Steve have been working together since the mid 1970s, and their expertise in the field of service and repair established them as the go-to destination for any heavy equipment machinery needs.

Everyone at American Lift & Equipment, Inc truly embodies the company's goal to make sure their clients are satisfied with every step of the process, from browsing new equipment to refurbishment and repair.

Whether you're looking for container handlers, earth movers, or any heavy machine in between, I definitely recommend American Lift & Equipment, Inc for their attention to detail and quality of service.

Sincerely,

Thomas Gilman
