

To whom it may concern,

I am more than happy to write this letter of recommendation on behalf of Klausz Dental Labs. Operating in North York, Klausz Dental Labs is a distinguished dental laboratory that has been a cornerstone in the industry for over fifty years.

Klausz Dental Labs offers an extensive range of cutting-edge dental techniques, products, and services to meet every dentist's needs. This includes night guards, dentures, orthodontics, and much more. By offering non-invasive, reversible, and long-term solutions for dental practices to adopt, it supports the optimization of their client's operations.

Klausz Dental Labs is not merely a service provider — it creates genuine partnerships with dentists around the country by actively engaging with their clients and understanding their unique goals. Ronald Klausz, R.D.T, the driving force behind Klausz Dental Labs, articulates the evolving role of the dentist/laboratory relationship and emphasizes the importance of being an extension of the dental practice. This dynamic collaboration has been instrumental in the success of both its clients and the laboratory.

Overall, I highly recommend Klausz Dental Laboratory for any dental practice looking to improve their patient experience through innovative dental products and services. With Klausz Dental Labs, you can rest assured knowing you will get exceptional products and service every time.

Sincerely,

David Don
