

To whom it may concern:

I am more than happy to write this letter of recommendation on behalf of a great organization, NWIRC. Founded in 1988, NWIRC helps small and mid-sized manufacturers throughout northwest and north central Pennsylvania strengthen their operations and remain competitive. NWIRC works alongside manufacturers to address business challenges, pursue growth opportunities, and prepare for the changing demands of the industry.

NWIRC provides consulting, training, and development opportunities focused on business growth, continuous improvement, employee development, advanced manufacturing technologies, and supply chain support. Its customized programs help manufacturers improve productivity, strengthen their workforce, and address operational challenges.

A knowledgeable and experienced team is central to NWIRC's work. Its strategic business advisors and specialists bring backgrounds in manufacturing operations, leadership, technology, workforce development, and organizational improvement. Their hands-on approach allows them to understand each manufacturer's challenges and provide practical guidance tailored to its goals.

I highly recommend NWIRC to manufacturers seeking experienced guidance and practical support to strengthen their businesses. Its knowledgeable team, diverse expertise, and dedication to helping manufacturers improve and compete make it a valuable resource throughout Pennsylvania's manufacturing community.

Sincerely,

Adam Baker
