Bradford Family Dentistry: Bringing Joy To The Dental Office

In the heart of Bradford, where smiles meet superhero-themed décor, Bradford Dental has been a staple in the community for over two decades.

Driven by a passion for patient care and a commitment to providing a unique dental experience, the clinic stands as a testament to the vision of Dr. Chai, whose journey into dentistry was more serendipitous than planned.

Dr. Chai's journey began in 2001 when he acquired the Bradford Dental Practice from a retiring dentist. Over the next two decades, the clinic witnessed significant growth.

In a strategic move in 2022, Dr. Chai embraced an opportunity to partner with corporations, allowing them to shift focus solely on patient care while relinquishing administrative responsibilities.

As the lead dentist, Dr. Chai offers an array of services, including routine cleanings, gum treatment, tooth-colored fillings, root canals, tooth removal, dental implants, cosmetic work, orthodontics, and same-day porcelain/ceramic crowns.

What sets Bradford Dental apart is not just its comprehensive services but the outstanding team that delivers them. With ten equipped chairs and a themed office inspired by superheroes, Dr. Chai emphasizes the importance of creating a fun atmosphere, especially for younger patients. The team is composed of extremely caring dental staff, dedicated to helping patients achieve long-lasting dental health.

In addition to the themed environment, Bradford Dental distinguishes itself by offering in-office crown production, cutting down on patient visits, saving them time. The clinic also utilizes advanced technology, demonstrating a

commitment to staying at the forefront of dental innovation.

When asked about what gives Bradford Dental its competitive advantage, Dr. Chai highlighted the ability to provide a range of services under one roof, coupled with a spacious office that can accommodate dental emergencies promptly.

As they look into the future, plans are underway to expand the practice by adding more associate dentists, hygienists, and support staff. The clinic has ample space to grow and envisions becoming a hub for dental care in Bradford.
