

To whom it may concern:

It is with great pleasure that I write this letter today in recognition of TruSmile Orthodontics. Located in Culver City, California, TruSmile Orthodontics is a cutting-edge orthodontic practice that specializes in helping patients transform their smile through braces and Invisalign.

TruSmile Orthodontics uses the TruFit Technique which allows it to create smiles that are not only straight, but also perfectly symmetrical and proportionate with your other features. It does this by taking into consideration things like the shape of your mouth and teeth, your eyes and your nose.

All the services offered by TruSmile Orthodontics are provided by the talented Dr. Zamani and his team. Dr. Zamani is highly trained and knowledgeable, having graduated with a Doctor of Dental Surgery from the University of Southern California before completing a dual degree in orthodontics and a Masters in Dental Science at the University of Pittsburgh. He and his team are always friendly and work hard to ensure each patient has a positive experience.

I highly recommend TruSmile Orthodontics to anyone that's unhappy with how their teeth look. TruSmile Orthodontics is dedicated to helping patients transform their smile so they can feel confident in how they look.

Sincerely yours,

Dave Rochester
