## Small Package Shipping and Courier Expense Reduction Overview

Small package shipping, as well as courier services, are vital to many businesses – services with fees that can quickly add up. Our consultants are experts in ensuring those costs are as low as possible, while maintaining the services and standards your business needs.

Most shipping and courier clients are billed weekly rather than monthly. Do you have time each week to ensure:

- **The correct discounts were applied based on the weight/size/service level of the shipment?**
- **Guaranteed service commitments were met?**
- **Residential surcharges and address correction charges were valid?**

We do. We have the time, the tools, and the experience to meticulously monitor these areas, ensuring they aren't costing you more than they should.

When we do, we find many businesses are overpaying for things like daily pickups, residential, delivery area, and additional handling surcharges. Also, they're also often unaware of the impact that minimum net rates and dimensional divisors can have to their costs.

### Our Services Involve:

- **NO Risk** – we either save you money or validate your existing expenses
- **NO Up-Front Cost** – our fees are a portion of the shared savings for a limited time
- **NO Disruption** – the process is easy and requires very little of your time
- **NO Obligation** – you are in control and can say yes or no to any savings recommendation
