SCHOOLEY MITCHELL

To whom it may concern:

It is a pleasure to recommend Allen + Shariff, a respected engineering firm providing consulting, design, and project management services in the United States and the Middle East. It has earned a strong reputation for delivering innovative technical solutions and professional expertise across a wide range of complex projects with more than two decades of experience.

Allen + Shariff offers a comprehensive portfolio of engineering and consulting services designed to support successful project planning and execution. Its capabilities include mechanical, electrical, and plumbing (MEP) engineering, commissioning, energy consulting, building automation, and technology systems design. Through these services, it helps clients develop high-performing, efficient, and reliable facilities that meet both operational and long-term objectives.

Allen + Shariff is supported by a knowledgeable team of engineers, consultants, and technical specialists who bring a wealth of experience and expertise to their work. Its professionals prioritize collaboration, clear communication, and attention to detail while working to understand the specific needs of each project. Their commitment to quality and problem-solving allows the team to deliver effective solutions tailored to each client's objectives.

I highly recommend Allen + Shariff for its expertise, professionalism, and dedication to excellence. Its broad range of services, talented team, and commitment to delivering effective results make it a valuable resource for organizations seeking trusted engineering and consulting support for projects of all sizes and complexities.

Sincerely,

Marc Schwalb
