

To whom it may concern,

I am pleased to write this letter of recommendation for T&T Power Group. Founded in 1981, it has built a strong reputation as one of Canada's leading providers of power generation, distribution, and control solutions. Over more than four decades, it has continued to expand its capabilities across the country while maintaining a strong commitment to customer service, innovation, and dependable technical expertise.

T&T Power Group specializes in standby and prime power generators, power distribution systems, custom control panels, switchgear, motor controls, generator rentals, variable frequency drives, and high-voltage service solutions. It serves a wide range of industries including commercial, industrial, agricultural, mining, oil and gas, municipal, and water treatment sectors. Through its in-house engineering, manufacturing, and integration capabilities, it delivers customized power solutions tailored to complex operational requirements across Canada.

What sets T&T Power Group apart is its experienced and highly knowledgeable team of engineers, technicians, and support professionals who are dedicated to providing responsive and reliable service. The team emphasizes innovation, flexibility, teamwork, and long-term client relationships while offering 24/7 emergency support and nationwide service coverage.

I highly recommend T&T Power Group for its professionalism, industry expertise, and dedication to delivering dependable power generation, distribution, and control solutions that help businesses and organizations operate safely, efficiently, and with confidence.

Sincerely,

Dinesh Mohangupta
