

To whom it may concern,

I am pleased to write this letter of recommendation on behalf of Doctors Nova Scotia! It is a vital and professional organization that plays a key role in supporting physicians and strengthening the healthcare system in Nova Scotia.

As Canada's oldest medical association, it represents over 3,500 physicians and serves as a collective voice for the medical community across the province. It offers a wide range of services that reflect its commitment to both healthcare providers and patients. It negotiates physician remuneration with the provincial government, supports the integration of e-health solutions such as electronic medical records and virtual care, and collaborates with partners to advance patient care initiatives.

It is managed by a skilled and knowledgeable team that brings expertise, leadership, and a collaborative spirit to its work. Their ability to navigate complex healthcare issues and provide meaningful support to physicians makes them an indispensable part of Nova Scotia's healthcare landscape.

I highly recommend Doctors Nova Scotia. It is a vital and trusted organization that supports both healthcare professionals and the patients they serve, playing a critical role in advocating for physicians while promoting system-wide improvements that benefit the entire province.

Sincerely,
