

To whom it may concern,

I am more than happy to write this letter of recommendation on behalf Tracer, a printed circuit board assembly (PCBA) manufacturer in Golden, Colorado. Tracer has established itself as a leading source for Colorado-based space and energy companies.

Tracer offers a wide range of PCBA services, including prototyping, mid-volume production, and custom assembly support activities. Its unmatched level of attention to customers reduces lead times, optimizes manufacturability, and ensures robust processes on high-reliability or complex PCBAs.

At Tracer, it is the dedicated team of qualified professionals that makes all the difference. They are well-trained and innovative, ready and able to tackle unique technical challenges while engaging in open discussions about optimizations. They always put their customers first and are committed to prompt and professional service throughout the production process.

I highly recommend Tracer Inc. to any company seeking a reliable and flexible partner for PCBA manufacturing. With Tracer, you can expect competitive service, prompt delivery, and high-quality circuit boards tailored to meet the needs of your next project.

Sincerely,

Matt Nagy
