Start saving from day one! A practice producing \$1M in revenue, will spend about \$4,000 a month in service fees for these three categories. On average **we reduce fees by 28%** - or nearly \$13,000 a year for a \$1M practice.

Step One:

Review your business plan and complete a short questionnaire to identify your unique vendor requirements.

Step Two:

Negotiate and secure up to three vendor quotes for each selected cost category.

Step Three:

Based on your timing and vendor requirements, select a preferred vendor for each cost category.

Step Four:

Manage the implementation and deliver an *Implementation Verification Report (IVR)* documenting the successful set-up.
