To Whom It May Concern:

I would like to share my recent experience with Verdant Landscape and Design Inc.

Verdant Landscape and Design is a family owned, Milton based, full-service landscape company that seeks to provide exceptional quality and service to both maintenance and construction clients. They offer a wide range of services from design and construction to property maintenance and consultation. They service clients in Burlington, Hamilton, Oakville, Milton, and Mississauga.

I had a tree on my property that unfortunately died over the winter season that needed to be removed. I reached out to Matt Robertson at Verdant Landscape and Design to see if they could help. As a small business owner myself, I try to support other local businesses whenever I can. Matt responded quickly and came out to my property to access the job.

Within a couple of days, Matt's team was back at my property and the tree was quickly removed roots and all. They cleaned up after the job and left my property looking better than when they had arrived. No one would be able to tell that a tree had previously been there.

Later that day after the tree had been removed, I received an email from Matt with some helpful landscaping tips including the need for "candling" – a form of pruning – for some of my bushes and how I could do this myself. I truly appreciate the expert knowledge and attention to detail that Matt provides to his clients.

I would recommend Verdant Landscape and Design Inc. to any homeowner who has any landscaping issues and requires a professional who will treat their property like their own with the utmost expertise and care.

Yours truly,
