

To whom it may concern:

I am pleased to recommend United Surface Preparation, a leading specialty industrial distributor headquartered in Anoka, Minnesota. With decades of industry experience, it provides abrasive, surface preparation, equipment, and industrial supply solutions to businesses in metalworking, woodworking, foundry, concrete, and other industries.

United Surface Preparation offers a comprehensive range of products and services, including abrasives, blasting equipment, air tools, safety products, vibratory equipment, concrete equipment, tool repair, equipment rentals, preventative maintenance, process improvement, and skills training. It also provides vendor-managed and consigned inventory programs designed to reduce administrative demands, minimize shortages, and improve operational efficiency.

A particular strength of United Surface Preparation is its knowledgeable and experienced team. Its professionals have extensive industry training and specialize in helping customers identify effective products, equipment, and processes for their specific applications. Their expertise and responsiveness demonstrate its dedication to providing dependable service and practical solutions.

I highly recommend United Surface Preparation for businesses seeking reliable surface preparation products, equipment, and technical support. It combines an extensive product selection with specialized services and a highly experienced team committed to helping customers improve productivity, quality, and efficiency.

Sincerely,

Nick Vetrano
