

To whom it may concern:

It is a true pleasure to write this letter on behalf of DC Construction Services. Founded in 1995, DC Construction Services is a full-service provider of asphalt, concrete, and sealcoating, with extensive industry experience.

DC Construction Services was founded as “DC Sealcoating” and was initially just a summer job for 16-year-old Dustin Calhoun, but the business endeavor paid off and ended up paying for his college. It was changed to its current name in 2013 to better reflect its service offerings, which now include new asphalt and concrete, resurfacing, sealcoating, asphalt crack sealing, line striping, and concrete caulking.

Since then, DC Construction Services has completed over 11,000 projects and has become a nationwide asphalt and concrete contractor for commercial customers, such as Wal-Mart, Home Depot, and CVS Pharmacy.

Standing behind DC Construction Services is a team that truly cares about the work they do and their customers. They work hard to keep clients informed during every phase of the project, complete each project in a timely manner, and leave their worksites looking even better than when they found them.

I highly recommend DC Construction Services to any company looking for a company they can count on for quality service and quick turnaround times! With the team at DC Construction Services, each project is done with the utmost care!

Sincerely yours,

Rodney Wead
