

7/7/21

YWCA McLean County has been utilizing Schooley Mitchell's services for close to a year. David thoroughly explained the process and answered all my questions. Everyone at Schooley Mitchell has been very kind and pleasant to work with. They assessed our expenses in various areas and found opportunities for us to be more efficient and save money. We are always looking for opportunities to reduce costs without affecting services. YWCA McLean County is a nonprofit with limited staff time so it is very helpful to have another set of trusted eyes to analyze contracts and expenses. Working with Schooley Mitchell has allowed our administrative staff to focus more on our services and mission related offerings.
