

To whom it may concern:

I would like to take this opportunity to write a letter of recommendation on behalf of a great company, Asset-Map. Founded in 2013, Asset-Map is on a mission to help elevate the financial wellness of millions of people around the globe.

Unlike traditional software tools, Asset-Map provides an interactive holistic view of a household's financial picture that empowers people to easily comprehend, discuss, and make smart financial decisions now and in the future. It's used by thousands of financial advisors, across multiple currencies and languages, to help people focus on what matters, make more engaged and confident decisions, and reach their financial goals.

At Asset-Map, it is truly the team that sets them apart. Comprised of industry experts and dedicated professionals, each one is committed to providing unparalleled support and guidance to its clients. With a wealth of knowledge, passion for innovation, and unwavering dedication to client success, the Asset-Map team stands ready to go above and beyond for their clients.

I highly recommend Asset-Map to any professional in the financial industry. Asset-Map's unique software will help streamline your financial planning services to help educate and inform your clients unlike ever before.

Sincerely,

Michael Neil and Larry Nipon
