

To whom it may concern,

It is my pleasure to recommend David Burke of Schooley Mitchell. We engaged David to audit our waste expenses. We have often wondered if we were overspending but did not have the time to dedicate to an analysis ourselves.

Since beginning operations in 1982, Bulldog Movers has strived to be the movers Atlanta residents and businesses turn to for a level of customer service unparalleled by any other local movers in the area. This unwavering commitment to our customers has allowed our company to grow into one of the largest movers in Atlanta.

David's team analyzed our invoices to determine whether or not savings could be found. This process was truly very easy from our end. All that was required was a quick conversation about our set up, access to our invoices and contracts, and then Schooley Mitchell did all the work from there.

I was thrilled when David came back to us and presented the report showing that Schooley Mitchell was able to identify over **12%** in Waste savings which to date have added up to \$12,280 in savings. We then asked David to review our Telecom spend and he and his team found over 14% savings, nearly \$500 per month with no vendor change. These savings allow us to better serve our customers and staff, which means a lot to our business.

After reviewing our set up, Schooley Mitchell found that our electronic logging device expenses are already completely optimized. This assurance is incredibly comforting, knowing that our budget in this area has only been going towards what truly matters.

Overall, my experience with Schooley Mitchell and David Burke was excellent, and I highly recommend any business or organization take advantage of their expertise. David is professional and passionate about the work he does!
