

To Whom it May Concern,

October 10, 2025

I am happy to give a testimonial to Jeremy Hellman and his team at Schooley Mitchell. As a family business, we have built and operated WG Speeks with a focus squarely on our customers since our founding in 1943. With so much of our time, energy and resources devoted to those customers, finding time to deal with our various vendors is a constant challenge. When Jeremy approached us offering to take some of that off our plate while hopefully saving us money, I was curious to hear more, especially given their success fee-based compensation structure.

We agreed to review our fleet fuel expense first, so we could get a feel for the Schooley Mitchell process and see what value they could deliver. The team at Schooley Mitchell conducted a thorough analysis of our fleet fuel card program, which resulted in a detailed report containing their recommendations for cost-saving measures. Jeremy and his colleagues walked me through their analysis in detail, which was very helpful and informative too. In the end, they were able to save us nearly \$6,000 per year on our fuel expense so we were naturally very happy with this result.

In summary, I highly recommend an expense reduction analysis by Jeremy Hellman and Schooley Mitchell to any school or company looking to improve their bottom line and increase their efficiency. Their team of experts will provide you with invaluable insights and recommendations that can help you save money and improve your operations.

Sincerely,
