

EVANGELICAL FREE CHURCH

1300 E. CHESTNUT ST., CANTON, IL 61520

To whom it may concern,

The Evangelical Free Church of Canton recently worked with Joe Hitchcock of Schooley Mitchell to review certain operational expenses for potential cost savings.

The process was straightforward and required very little time from our staff. Joe gathered the necessary information, communicated clearly throughout the review, and presented his findings in a way that was easy for our finance team to understand.

Through this review, a reduction of 12.98% was identified in waste removal. These savings allow additional funds to be directed toward the mission and ministry of the church rather than administrative expenses.

We especially appreciated that there was no upfront cost, no obligation to implement changes, and no disruption to our operations. The work simply confirmed we had either competitive pricing or identified opportunities to steward resources more effectively.

The manner in which the review was conducted reflected the integrity and stewardship values we strive to uphold, and we appreciate Joe's support of our ministry.

Based on our experience, we would recommend allowing Schooley Mitchell to perform a review for any entity interested in ensuring their resources are being used wisely.

Sincerely,

Doug Brown
Finance Committee
