

WAUSEON EXEMPTED VILLAGE SCHOOLS

February 02, 2025

Approximately 1700 students matriculate to Wauseon Exempted Village School District for their K-12 education. As measured by the State of Ohio in the 2023-2024 school year, our students exceeded or significantly exceeded the state's standards in achievement, graduation, progress, early literacy, gap closing, and readiness (college, career, military, and workforce).

When John with Schooley Mitchell of Wauseon approached us, we liked a number of features in their offerings. Auditing our operational expenses, analyzing our needs, using Schooley Mitchell's leverage (32,000 clients), and monitoring our costs moving forward all brought significant savings; advancing the school's mission. Schooley Mitchell reduced our phone bill by 44%, Waste (22%), and facility supplies (15%) WITHOUT changing our vendors or products.

Feel free to contact me or Schooley Mitchell directly.

Sincerely,

Troy Armstrong
