***"Providing excellence in health care...for your pets"***

At Armitage Animal Clinic we are committed to providing quality care at every stage of our clients pet's life. From routine preventive care to early detection and treatment of a wide range of conditions and diseases, we have the expertise to provide the highest standard of care for their pets. That is where our focus is and should be. Schooley Mitchell are experts in negotiating cost reductions in some of my expenses that I do not have time to review on a regular basis.

I would like to take this opportunity to thank Stephan and Schooley Mitchell for the excellent service they provided to Armitage Animal Clinic. Stephan took the time to walk me through the no-obligation approach that Schooley Mitchell takes when doing their analysis on the different expense categories which made it an easy decision to have them look at a number of categories including my credit card processing fees.

After their review I was pleased to see our credit card processing fees had a 10% savings without the need to change equipment or providers. The best part was that they did everything necessary with the service provider to get the savings implemented leaving me to focus on my business.

Thank you for making this whole process easy Stephan.

Best regards,

Leslie Williams, B.Sc., D.V.M.
