To Whom It May Concern,

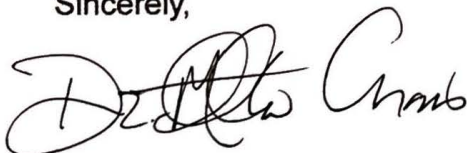

We recently worked with Ray McCormick of Schooley Mitchell of Wake Forest to conduct a thorough review of our chiropractic office's telecom services. Our goal was to identify any potential cost savings and ensure we were getting the best value for our needs.

Although Schooley Mitchell's analysis ultimately revealed that our telecom services were already well-optimized and no savings opportunities were currently available, the experience was incredibly worthwhile. Ray and the entire team were professional, knowledgeable, and respectful of our time throughout the entire process.

The comprehensive evaluation gave us peace of mind knowing that we are not being overcharged and that our rates are in line with current market pricing. Having that kind of validation from an independent expert like Schooley Mitchell is both reassuring and empowering as a business owner.

We highly recommend Ray and Schooley Mitchell of Wake Forest to any business looking to review their expenses. Even if no savings are found, the clarity and confidence gained from the process make it a valuable investment.

Sincerely,

Dr. Matthew Chavis
