

To Whom It May Concern,

I am pleased to recommend Morris Ng of Schooley Mitchell for his expertise in cost reduction consulting. We engaged Morris to audit our Electronic Payment Processing (EPP) expenses, and he clearly explained that the initial analysis came at no cost, with our business maintaining full control over any changes or decisions.

Golden Electrical Services is a family-owned and operated business based in Livermore, CA, with over 10 years of experience in the electrical industry. We specialize in electrical installations, repairs, and maintenance, ensuring safety, efficiency, and compliance with industry standards. As a small business, every dollar saved makes a significant impact.

After completing the initial analysis and vendor negotiations, Morris scheduled a detailed review to walk us through the cost-saving opportunities Schooley Mitchell had identified. The report was thorough, well-structured, and provided multiple options to choose from. Ultimately, we moved forward with an option that identified 39% of savings in our EPP expenses.

What stood out most is that Schooley Mitchell handles all the heavy lifting, making the process seamless and hassle-free. Their service has been nothing short of exceptional, allowing us to focus on our core business while they monitor invoices and continue identifying additional savings.

I highly recommend Morris Ng and Schooley Mitchell to any business or organization looking to reduce costs and improve profitability. Their expertise and commitment to maximizing savings provide real value to businesses like ours.

Warm regards,

Jesus Bibiano

Owner, Golden Electrical Services
