Testimonial for Schooley Mitchell

Dave Schukai

We had a fantastic experience working with Dave Schukai and Schooley Mitchell. Dave was friendly, patient, and incredibly easy to work with. His follow-up was great—he kept things moving without ever being pushy, and when running our business pulled my attention elsewhere, he was always patient about reminding me what he needed and what the next step was.

What impressed me most was how much of the work they took off our plate. We gave Dave and his team access to the accounts they needed, and they took it from there. They pulled the data, reviewed our spending, researched alternatives, compared our options, and came back to us with clear findings and recommendations. I was able to keep focusing on running our business while they did the heavy lifting.

We were fortunate that their review confirmed we were already on the right track in several areas. But what gave me the most confidence was how comprehensive their process was. I came away feeling that **if there had been a problem or an opportunity we were missing, they would have found it.**

One of the best surprises from the whole experience was Dave introducing us to Champion Health. It wasn't even something we were looking for when we started, but it created savings for both Bickimer Electric and our employees while also giving our team access to additional health support options at no added cost. **Holy cow—what a wonderful added benefit!** It showed me that Dave wasn't just checking boxes on the accounts we asked him to review. He was genuinely looking for ways to help our business and our people.

Every business owner wonders where money might be slipping through the cracks or whether there's a better way to do something. Having a team like Schooley Mitchell dig into those areas for you can either uncover opportunities to improve or give you confidence that you're already headed in the right direction. Either result has real value.

I would absolutely recommend Dave and Schooley Mitchell to any business looking for help getting a better handle on its expenses. They did the hard work, made the entire process easy for us, and were genuinely some of the nicest people to work with.

Sincerely,

Michael Bickimer
